SELECT COMMITTEE  
ON INTELLIGENCE

SPECIAL COMMITTEE ON AGING

# United States Senate

WASHINGTON, DC 20510

April 4, 2023

The Honorable Jeff Merkley  
Chairman  
Appropriations Subcommittee on Interior,  
Environment, and Related Agencies  
Washington, DC 20510

The Honorable Lisa Murkowski  
Ranking Member  
Appropriations Subcommittee on Interior,  
Environment, and Related Agencies  
Washington, DC 20510

Dear Chairman Merkley and Ranking Member Murkowski:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2024 Interior, Environment, and Related Agencies Appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

Robert P. Casey, Jr.  
United States Senator

**Casey, Robert(D-PA) Interior and Environment  
Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (\$000)</b>
The Borough of Sewickley	This project will remediate deficiencies at the Borough of Sewickley's sewage treatment facility to address immediate health and safety risks that employees are exposed to.	Allegheny PA	\$500
The Municipal Authority of the Borough of Edgeworth	This project will help the Municipal Authority of the Borough of Edgeworth replace its water line, eliminating the frequent leaks and the possibility of lead service lines up to the curb stop.	Allegheny PA	\$500
Kittanning Suburban Joint Water Authority	This project will provide the Kittanning Suburban Joint Water Authority with a redundant feed to the water distribution system so that if the existing transmission main breaks, the Authority can still provide water to the system.	Armstrong PA	\$500
County of Bedford	This project will make necessary upgrades to the sanitary wastewater, storm water, and potable waterline at the Bedford Fairgrounds, a major hub for activities in Bedford County.	Bedford PA	\$440
Bradford City Water Authority	This project will construct a redundant water main in the City of Bradford that will allow for the ability to make critical repairs on one main without having to completely shutoff service for users.	Bradford City PA	\$4,967
Broad Top Township	This project will construct a wastewater treatment system to serve the 47 homes in the community of Cypher Beach, Broad Top Township through a modified gravity sewer collection system.	Broad Top Township PA	\$788
Township of Falls Authority	The project will make necessary repairs to the Falls Authority sanitary sewer to prevent inflow/infiltration and restore the structural integrity and conveyance capacity of the existing sewer network.	Bucks PA	\$320
Cranberry Township	This project will help Cranberry Township proactively manage and begin to relace aging infrastructure that is critical to maintaining a healthy and sustainable community.	Butler PA	\$500
Driftwood Borough	The purpose of this project is to make vital infrastructure improvements that will help ensure cleanliness of drinking water by lowering the likelihood of lead, iron, and other potential contaminants from entering the water system.	Cameron PA	\$500
Borough of Lehighton	This project will abate the inflow and infiltration of stormwater and groundwater into the sanitary sewer system, restoring capacity and allowing economic growth and land development to continue.	Carbon PA	\$500
Coaldale Lansford Summit Hill Sewer Authority	This project will address needed rehabilitation work along a sanitary sewer system, including two pumping stations and a force main. This will allow for continued service in this environmental justice community.	Carbon County PA	\$2,000
Borough of Oxford	This project will modify and upgrade the Borough of Oxford's water treatment to address deteriorating infrastructure and help the Borough maintain the sustainability of its services.	Chester PA	\$500
City of Erie	This project will repair the chlorine operation at the wastewater treatment plant to ensure the proper disinfecting of effluent discharge.	City of Erie PA	\$500
Clinton County Government	This project will help residences along Cottage Lane that currently share a single, privately-owned, antiquated supply line running or are using private well water access a safe drinking water supply.	Clinton PA	\$500

Darlington Township	The project will allow for the transport of potable water through 8-inch PVC and ductile iron pipe along approximately five miles of Darlington Township state highway frontage, helping residents access clean, public drinking water in the aftermath of the Norfolk Southern derailment.	Darlington Township PA	\$3,500
Capital Region Water	This project will help restore the natural ecological function of Paxton Creek by acquiring the rights-of way needed to install a new interceptor to carry municipal wastewater to its treatment facility, eventually replacing an old interceptor that is far beyond the end of its useful life.	Dauphin PA	\$500
The Municipal Authority of the Township of Washington	The project will make necessary rehabilitations and replacements to address several outstanding issues that are creating hazards and driving up costs in the Township of Washington.	Fayette PA	\$500
The Borough of Waynesburg	This project will help to ensure reliable sewer service to residents of the Woodland Avenue sewer shed by fixing the deteriorating sewer segments and manholes in the Woodland Avenue area.	Greene PA	\$400
Blairsville Municipal Authority	The project will make various necessary renovations and improvements to the Blairsville Municipal Authority's water treatment plant.	Indiana PA	\$500
Brockway Borough Municipal Authority	This project will help the Brockway Borough Municipal Authority replace a portion of the Whetstone watermain, which has an asbestos-cement pipe that is deteriorating and at-risk for catastrophic failure. This will help ensure clean drinking water is consistently provided for the region.	Jefferson PA	\$621
Johnstown Area Heritage Association	The Johnstown Area Heritage Association is requesting funding to rehabilitate the aging Johnstown Flood Museum by restoring exterior features, upgrading HVAC and electrical equipment, and modernizing interior design elements.	Johnstown, Cambria County PA	\$500
Port Royal Municipal Authority	This project will support the elimination of sanitary sewer overflows by upgrading the Port Royal Municipal Authority's 1st Street Pump Station, eliminating Infiltration & Inflow of stormwater into the sanitary sewer, and upgrading their disinfection system	Juniata PA	\$486
Borough of Kennett Square	This project will fund the purchase of UV treatment equipment as part of the expansion of the local wastewater treatment plant so that it can increase its capacity and continue to provide service for the local, economically distressed community.	Kennett Square PA	\$2,000
Martinsburg Municipal Authority	This project will construct a new elevated storage tank as part of their drinking water system. This new tank will be constructed in an isolated portion of the system and provide a boost to overall storage, resident water pressure, and firefighting capacity for the area.	Martinsburg PA	\$1,867
Millerstown Borough	This project will add a secondary water source for the Millerstown Borough community since Borough residents, businesses, public facilities, and other entities currently depend on only one well, leaving water service vulnerable to power outages, mechanical failures, and other emergencies.	Perry PA	\$500
EBT Foundation, Inc.	The East Broad Top Foundation is requesting funding for a fire-suppression system for the East Broad Top Railroad's machine-shop complex, which will ensure machines can be safely used for public demonstrations.	Rockhill Furnace, Huntingdon County PA	\$500
Schuylkill County Municipal Authority	This project will construct a redundant water main to ensure continued service to residential and commercial users, as well as the local correctional facility, in the event of any disruption. A rupture along the existing line in 2022 highlighted the need for this project.	Schuylkill County PA	\$848

Lackawanna River Basin Sewer Authority	This project will upgrade aging infrastructure at an existing wastewater treatment plant. This will provide a vital public service critical to protecting public health and the environment.	Susquehanna PA	\$500
Venango County Planning Commission	This project will replace the existing fifty-year old treatment plant that has reached end of life status. This will allow the Two Mile Run Park to continue operations and provide recreational opportunities to thousands of visitors.	Venango County PA	\$639
Donegal Township Supervisors	The project will construct a municipal wastewater collection and treatment facility in Donegal Township to help the facility comply with a Consent Order Agreement between the PA Department of Environmental Protection and Donegal Township.	Westmoreland PA	\$500
Tunkhannock Borough Municipal Authority	This project will replace the reservoir liner and cover at the Tunkhannock Borough Municipal Authority's principal water storage facility, which will help keep the reservoir water fit for human consumption and safe from microbial contamination.	Wyoming PA	\$500
