SELECT COMMITTEE
ON INTELLIGENCE

SPECIAL COMMITTEE ON AGING

United States Senate

WASHINGTON, DC 20510

May 5, 2022

The Honorable Dianne Feinstein
Chairwoman
Appropriations Subcommittee on
Energy and Water Development
Washington, DC 20510

The Honorable John Kennedy
Ranking Member
Appropriations Subcommittee on
Energy and Water Development
Washington, DC 20510

Dear Chairwoman Feinstein and Ranking Member Kennedy:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2023 Energy and Water Appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

Robert P. Casey, Jr.
United States Senator

**Casey, Robert(D-PA) Energy and Water Development
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Corps of Engineers	This project will support a critical sewer overflow component of Allegheny County Sanitary Authority's (ALCOSAN) \$2 billion Clean Water Plan. The project will demolish some structures and construct others in an effort to seriously reduce the overflows of diluted, untreated wastewater into the region's waterways.	Allegheny County, Pennsylvania PA	\$2,625
Corps of Engineers	This project will provide funding for the Delaware River Basin Comprehensive Watershed Assessment. The assessment will evaluate the reservoir system throughout the Delaware River Basin and evaluate opportunities for improvements across multiple purposes including flood risk management, ecosystem restoration, water supply, recreation and other opportunities. The funding will pave the way for future water projects that benefit the communities and families throughout the Delaware River Basin.	Eastern Pennsylvania, New Jersey, New York, Maryland, and Delaware PA	\$2,050
Corps of Engineers	The 313 authority and any funding dedicated to it allow the Corps of Engineers to assist small and underfunded communities with infrastructure construction, repairs and upgrades for projects related to water supply and distribution, wastewater treatment, and critical source water protection. These funds would go towards environmental infrastructure projects in south central Pennsylvania via the 313 authority.	Franklin County, Pennsylvania PA	\$5,000
Susquehanna River Basin Commission	This funding will facilitate the Susquehanna River Basin Commission's extensive interstate water resource management activities, which complement and benefit the priorities of state and federal partners.	Harrisburg, Dauphin County PA	\$493
Steel Valley Authority	The Keystone Research Center will use this funding to conduct applied research to assist Pennsylvania manufacturers implement renewable, clean energy, energy resiliency and carbon management solutions within their own industrial processes and produce products for clean energy and sustainable industries.	Harrisburg, Dauphin County PA	\$320
Tri-COG Land Bank	Tri-COG Land Bank is requesting funds for a planning study for a solar farm on abandoned, vacant land in the Borough of North Braddock. This project will increase the energy efficiency of the Borough, alleviate energy cost burdens for residents, and mitigate the damaging fiscal, health, and safety impacts of blighted vacant land.	Homestead, Allegheny County PA	\$21
Luzerne County Transportation Authority	This request will fund the purchase and installation of rooftop mounted solar PV panels and supporting solar power equipment for the Luzerne County Transportation Authority's (LCTA's) new transit facility.	Kingston, Luzerne County PA	\$625
Corps of Engineers	The Section 510 program is an important tool for advancing efforts to restore the health of the Chesapeake Bay through implementation of the 2014 Chesapeake Bay Watershed Agreement's 2025 milestone for integrated water resources management. This program authorizes the Corps to design and construct water-related resource protection and restoration projects within the Chesapeake Bay watershed in partnership with non-federal sponsors. An additional \$11,250,000 in Congressionally Directed Spending funds will allow the Corps to continue to fund these critical restoration projects throughout the Chesapeake Bay Watershed.	Pennsylvania PA	\$11,250
Philadelphia Green Capital Corporation	This project will allow the Philadelphia Green Capital Corporation to provide subsidized financing options for the installation of solar electric systems across 400 low- and moderate-income homes in Philadelphia.	Philadelphia PA	\$1,943
Interstate Commission on the Potomac River Basin	This funding will further the Interstate Commission on the Potomac River Basin's efforts to protect, preserve and restore the water quality of the Potomac River and its tributaries.	Rockville MD	\$650

Corps of Engineers	This project will provide funding to conduct a feasibility study for modifications to an authorized Army Corps project to improve the quality of aquatic habitat and the environment both in-lake and in the downstream ecosystem.	Tioga County, Pennsylvania PA	\$400
Penn State University	This funding will be used to design, build, and test a modular pilot-scale research and development unit at Penn State University that will recover rare earth elements from acid mine drainage.	University Park, Centre County PA	\$2,100
Delaware River Basin Commission	This funding will support the Delaware River Basin Commission in addressing the basin's major challenges, including water quality, drought management, flood loss reduction and conservation.	West Trenton NJ	\$715
